#### SUPPLEMENTARY INFORMATION:

#### I. Background

Agreements established with the Islamic Republic of
Afghanistan exempt the United States Government and the
North Atlantic Treaty Organization (NATO) Forces, and their
contractors from liability for Afghanistan taxes and
similar charges (e.g. customs, duties, fees).

The Security and Defense Cooperation Agreement (the Agreement) between the Islamic Republic of Afghanistan and the United States of America was signed on September 30, 2014, and entered into force on January 1, 2015. The Agreement exempts the United States Government, and its contractors and subcontractors (other than those that are Afghan legal entities or residents), from paying any tax or similar charge assessed on activities associated with contracts performed within Afghanistan. The Agreement also exempts the acquisition, importation, exportation, reexportation, transportation, and use of supplies and services in Afghanistan, by or on behalf of the United States Government, from any taxes, customs, duties, fees, or similar charges in Afghanistan.

The Status of Forces Agreement (SOFA) between NATO and the Islamic Republic of Afghanistan was issued on September 30, 2014, and entered into force on January 1, 2015. The

SOFA exempts NATO Forces and its contractors and subcontractors (other than those that are Afghan legal entities or residents) from paying any tax or similar charge assessed within Afghanistan. The SOFA also exempts the acquisition, importation, exportation, reexportation, transportation and use of supplies and services in Afghanistan from all Afghan taxes, customs, duties, fees, or similar charges.

DoD, GSA, and NASA are proposing to add two new FAR clauses to notify contractors of the exemptions under the Agreement and the SOFA.

This FAR rule was opened at the request of DoD's

Regulatory Reform Task Force (RRTF). The RRTF was

established under Executive Order 13777, titled "Enforcing

the Regulatory Reform Agenda," which requires agencies to

evaluate existing regulations on whether they should be

repealed, replaced, modified, or retained. The focus of

the DoD RRTF was to reduce regulatory burden on the public.

The DoD RRTF recommended this case be opened, since these

policies apply to multiple federal agencies identified in

this rule as a "covered agency." Some covered agencies

have developed agency-level clauses. Therefore, the

recommendation was made to elevate and include this policy

in the FAR. This measure eliminates the need for agency-

unique supplemental regulations and ensures unified guidance among the affected agencies, consistent with the purpose of the FAR system.

#### II. Discussion and Analysis

This proposed rule would notify contractors about the tax exemptions described in Section I of this preamble by adding the following two clauses:

• FAR 52.229-XX, Taxes-Foreign Contracts in Afghanistan, is proposed for inclusion in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, with performance in Afghanistan, unless the clause at 52.229-YY is used. The Agreement incorporated by this clause exempts: (1) the United States Government, and its contractors and subcontractors, (other than those that are Afghan legal entities or residents), from paying any tax or similar charge assessed on activities associated with contracts within Afghanistan; and (2) the acquisition, importation, exportation, reexportation, transportation, and use of supplies and services in Afghanistan, by or on behalf of the United States Government, from any taxes, customs, duties, or similar charges in Afghanistan. Contractors are

required to exclude any Afghan taxes, customs, duties, or similar charges from contract prices, other than those charged to Afghan legal entities or residents.

• FAR 52.229-YY, Taxes-Foreign Contracts in Afghanistan (North Atlantic Treaty Organization Status of Forces Agreement) is proposed for inclusion, instead of clause 52.229-XX, Taxes-Foreign Contracts in Afghanistan, in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, with performance in Afghanistan awarded on behalf of NATO. The SOFA incorporated by this clause exempts: (1) NATO Forces and its contractors and subcontractors (other than those that are Afghan legal entities or residents) from paying any tax or similar charge assessed within Afghanistan; and (2) the acquisition, importation, exportation, transportation, and use of supplies and services in Afghanistan, by or on behalf of the U.S. Government, from all Afghan taxes, customs, duties, or similar charges.

Since both agreements are currently effective for contractors operating in Afghanistan, this rule is only notifying contractors about the exemptions from liability for Afghanistan taxes, customs, duties, fees or similar

charges. The rule is not adding any new requirements for contractors; however, it is providing unified guidance for contractors performing in Afghanistan. DoD issued a final rule on December 30, 2015, at 80 FR 81467 that added similar clauses for applicable DoD contracts.

# III. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT) and for Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items

This rule creates two new clauses: (1) FAR 52.229-XX,
Taxes—Foreign Contracts in Afghanistan, and (2) FAR 52.229YY, Taxes—Foreign Contracts in Afghanistan (North Atlantic
Treaty Organization Status of Forces Agreement). The
objective of the rule is to notify U.S. Government
contractors that contracts performed in Afghanistan are
exempt from payment liability for Afghan taxes, customs,
duties, fees or similar charges pursuant to the Agreement
and SOFA.

DoD, GSA, and NASA are applying these two clauses to applicable solicitations and contracts below the SAT and to the acquisition of commercial items, including COTS items, as defined at FAR 2.101. This rule clarifies the application of requirements relating to treatment of Afghan taxes, customs, duties, fees or similar charges for contracts performed in Afghanistan. Not applying these

clauses to contracts below the SAT and for the acquisition of commercial items, including COTS items, would exclude contracts intended to be covered by this rule and undermine the overarching purpose of the rule for providing guidance to all applicable contractors. Consequently, DoD, GSA, and NASA are applying the rule to applicable contracts below the SAT and for the acquisition of applicable commercial items, including COTS items.

#### IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity).

E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule is a not significant regulatory action and, therefore, is not subject to review under section 6(b) of E.O. 12866,

Regulatory Planning and Review, dated September 30, 1993.

This rule is not a major rule under 5 U.S.C. 804.

#### V. Executive Order 13771

This rule is not subject to E.O. 13771, because this rule is not a significant regulatory action under E.O. 12866.

#### VI. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because this rule only clarifies contractor exemptions from Afghan taxes, customs, duties, fees or similar charges on contracts performed in Afghanistan. However, an Initial Regulatory Flexibility Analysis has been performed, and is summarized as follows:

DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to add two new clauses that notify contractors of requirements relating to Afghanistan taxes, customs, duties, fees, or similar charges when contracts are being performed in Afghanistan.

The Agreement between the Islamic Republic of Afghanistan and the U.S. Government exempts the Government, and its contractors and subcontractors (other than those that are Afghan legal entities or residents), from paying any tax or similar charge assessed on activities associated with contracts performed within Afghanistan.

The SOFA between NATO and the Islamic Republic of Afghanistan exempts NATO Forces and its contractors and subcontractors (other than those that are Afghan legal entities or

residents) from paying any tax or similar charge assessed within Afghanistan.

The objective is to notify contractors of both the Agreement and SOFA to clarify how they apply to contracts performed in Afghanistan.

According to data in the Federal Procurement Data System, the Government awarded an annual average of 4,277 contracts for fiscal years 2017 and 2018 with the principal place of performance Afghanistan to 444 unique contractors annually, of which 488 contracts were awarded annually to 110 unique small businesses percent). There was an average of 488 contracts with the principal place of performance Afghanistan awarded annually to small businesses in fiscal years 2017 and 2018. There was an average of 3,789 contracts with the principal place of performance in Afghanistan awarded annually to large businesses. The number of potential subcontractors to which the clause would flow down was calculated by using a ratio of 1:3, subcontractors per prime contract (4,277 annual prime contracts). This equates to 1,426 subcontractors, of which DoD, GSA, and NASA estimate that 75 percent would be small entities (i.e., 1,069). The total number of prime contractor and subcontractor small businesses impacted annually is 1,577.

The proposed rule does not include additional reporting, record keeping requirements, or other compliance requirements. The proposed rule does not duplicate, overlap, or conflict with any other Federal rules.

There are no available alternatives to the proposed rule to accomplish the desired objective of the statute. We do not expect this proposed rule to have a significant economic impact on a substantial number of small entities, because the rule is not implementing any new requirements with which small entities must comply. Also, small entities will benefit from having one governmentwide clause that identifies the current requirements relating to Afghanistan taxes or

similar charges when contracts are being performed in Afghanistan.

The Regulatory Secretariat has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C 610 (FAR Case 2018-023), in correspondence.

#### VII. Paperwork Reduction Act

This rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).
